## Thanksgiving Eve Celebration Promises To Be Gala Affair

### Red Cross Planning 1952 Fund Drive

Plans for the 1952 Red Cross fund drive are now definitely under way, with the appointment of David M. Thompson of Porter rd., as fund chairman. Mr. Thompson comes to this very important task with an excellent background of Red Cross training. He has for several years been an effective member of the advance gifts committee and during 1949 and 1950 served very successfully as its chairman. He is treasurer of Merrimack, Inc., of Lawrence. Mrs. Thompson is also a highly-valued worker in the local Red Cross chapter as vice chairman of service groups.

Mr. Thompson recently announced the appointment of Mrs. Byron Weiner of Shawsheen rd., as residential chairman for 1952. Mrs. Weiner has been a Red Cross fund worker for many years and recently has also been active in the blood program. On Friday morning Mrs. Weiner met with a group at Red Cross headquarters to initiate plans for the residential drive.

### Union Thanksgiving Service Thursday

The annual Union Thanksgiving service sponsored by the Andover council of churches will be held at 9 a.m. Thanksgiving day at the West Parish church. Music will be by the all girls' choir of the church under the direction of Miss Sylvia Vartanian, and the sermon will be preached by the Rev. Levering Reynolds Jr., pastor of the Free Christian church.

### NOTICE

— announces the new location of his office at his home, Dascomb Rd., cor. Lovejoy Rd., Andover, Tel. 345-R.

The joint Thanksgiving eve celebration sponsored by the new board of trade and the Boosters club which will be highlighted by the turning on of the Christmas lights and a gala street parade, promises to be an attraction of unusual interest.

It will be the first time that an event of this kind has been held here and it will serve to usher in the holiday season in a manner that should bring thousands of local and out-of-town residents to the business area. The event will wind up as a monster football rally for Punchard.

All the lights have been strung by the Legasse Amusement Co., of Haverhill and the only finishing touches that remain to be completed are the Service club Christmas tree in the square and a board of trade Christmas tree in front of the town house.

Festivities next Wednesday night will start promptly at 6:30 p.m. At that moment the switch will be thrown to turn on the Christmas lights throughout the downtown business area and at the same time the big parade will start from in front of the Free church. Merchants along the street will keep their stores open until 8 p.m. and all their window lights will blend with the colorful display along the street.

## Christmas Club Checks Issued For \$243,072

Andover banks have just concluded sending out almost a quarter of a million dollars to depositors in their Christmas club accounts, most of which reaches these regular depositors just in time to aid them in their Christmas shopping.

The Andover Savings bank issued checks totalling \$134,461 to 2101 accounts, and at the Andover National bank \$108,611 was mailed to 1313 accounts, a total of \$243,072 going to 3414 depositors.

## Methuen Defeats Punchard 27-7

Methuen captured the "Little Three" title Saturday by defeating Punchard 27 - 7 at the Highfield stadium, Methuen before a crowd of nearly 2000.

Punchard got away to an early lead in the contest, capitalizing on a Methuen fumble and while held on downs on the first thrust, came roaring back with a 45-yard march. Co-Captain Raeburn Hathaway pierced the Methuen line for three yards and the first score. Raymond Reed added the extra point on a pass.

Punchard was moving toward another touchdown in the second period when a fumble proved costly to the Andover cause and Methuen took over and marched 66 yards for the equalizing score and conversion. James Pringle went over from the one-yard line for the touchdown and Tom Wilson rushed the extra point.

## Pick Up Two Lads With Stolen Cash

A 12-year-old boy from Lawrence who stole \$319.68 from his father, and his pal, another 12-year-old of Salem, N.H., who were out on a spending spree were picked up by Sergt. W. R. Hickey on Lowell street Tuesday and turned over to Lawrence police. When searched by Andover police \$219.68 was found on them. They spent most of the money riding around in taxis.

In a final spurt to reach its goal in the community chest campaign Andover went well "over the top" in the drive just closed.

Although the town's original quota of \$18,979 was later readjusted to \$18,679 the various teams of workers under James R. Adriance, Andover chairman, topped the original goal by securing \$19,047 in pledges and contributions.

With this sum reported as of Nov. 12 there is every reason to believe that it will be bettered shortly as several people who were out of town during the campaign have yet to be heard from.

This achievement of obtaining well over 100% of the town's quota for the 13 Red Feather agencies affiliated with the Greater Lawrence community chest is very gratifying to the Andover chairman and the 300 volunteer workers who devoted so many hours of their time to the campaign.

Although the entire amount sought in the general fund was not secured the final report meeting Nov. 8 a group of civic leaders joined with chest officials to obtain the additional \$18,000 needed, and this appears to be within reach.

The Red Feather agencies connected with the community chest include the Andover Youth Center, Boy Scouts, Catholic Charities Center, Family Service Association, Girl Scouts, International Institute, Jewish Community Center, Mass. S.P.C.C., Protectory of Mary Immaculate, St. Anne's Orphanage, Tuberculosis and Health Association, Y.M.C.A., and Y.W.C.A.

The 1951 annual report of the chest notes that during the past year these services were used by 24,720 families and individuals of which 1940 were residents of Andover.

The play is an amusing story of three children, who, having lost their parents, struggle to make ends meet and yet manage to enjoy themselves immensely.

### Remote Control

Raking leaves is like lots of week end activities — good exercise, if you don't overdo it. Tom and I were discussing the hidden perils of even occasional week end exertion in the smoker of the morning train. He was suffering from the heavy sport of window washing.

"Just wait," he said. "With all these time-saving devices they're cooking up now, we'll soon be able to sit in the easy chair and cut the grass, wash the car, or rake the leaves by simply pressing a button. No stopping and starting — just sitting."

"That'll be the day," I replied, "but it sounds like the stuff the brakeman was talking about last week — CTC."

"Sure you don't mean CMP, CPS, or NPA?" asked Tom sarcastically.

"Don't be ignorant," I continued. "It means Centralized Traffic Control. It's a system of handling railroad switches and signals from a long way off."

"How far off?" Bill cut in.

"Well," I said, "I think one railroad can throw a switch 94 miles away. Such long distances are unusual, of course, but the point is that by throwing main line switches and giving the proper signal indication to the engineer, the Traffic Control center doesn't have to stop a train just to tell the engineer to pull in at the next siding. Sometimes these control points can even let a train overtake and pass another train, using the opposite track to do it — all on signal indication and without either train stopping."

"Gosh," said Tom, "sounds like one of those electronic brain calculators."

"I suppose there must be lots of wires and electrical gadgets in it," I agreed, "but they tell me the operation is simple, and it sure avoids lots of delays to trains. It's one more example of what the railroad is doing to improve its freight and passenger service."

## What Our Readers Say —

Editor of The Townsman:

The people of Andover didn't let the 13 community chest agencies down. As of Monday, Nov. 12, more than \$19,000 was donated or pledged — which means "Over the Top" in terms of the original goal of \$18,979, or the later adjusted goal of \$18,679 — and there are still several late contributions pending. North Andover and Methuen made a similar response; and, thanks to the tireless efforts of General Chairman Daniel Cahill, there seems to be an excellent chance of our reaching the Greater Lawrence goal of \$201,000.

Our own attainment of the goal set for Andover was made possible by (1) the generosity of our citizens and business firms and (2) the energy and enthusiasm of the men and women who went "all out" in covering the town from stem to stern by personal solicitation in weather occasionally fair, but more often foul.

For magnificent support and cooperation my personal thanks to division chairmen, majors, captains, solicitors, and report center workers; to Miss Miriam Putnam, last year's Andover chairman; to the Andover Townsman; to Andover's Tom Cudmore, executive secretary of the community chest; and to a 11 who contributed. That extra 20% was tough but we made it. Does anyone doubt that it will pay Big Dividends in human happiness and welfare?

Sincerely,  
James R. Adriance  
Andover Chairman

**Quality!** Quality, much more than size, determines the value of a diamond. The diamond in the \$100 ring is well-cut but ordinary in other respects. It would be considered *good quality* by most jewelers. The diamond in the \$150 ring is well-cut and of very fine color. It would be found in only a few stores maintaining exceptionally high color standards. The diamond in the \$200 ring is of the rare quality for which the name *Caliri, Inc.* is so well known. In addition to its *very fine cutting and color* it is totally free of microscopic inclusions. These tiny inclusions can be detected only with the aid of such scientific equipment as the diamondscope, an instrument developed especially for this purpose by the American Gem Society, and used in the grading of every diamond accepted for our stock.

## Juveniles And Crime

In an address before the Women's Rotary club of Boston recently Frederick Ayer Jr., former FBI agent, placed his finger on a sore spot in American life today when he blamed the glamorizing of criminals in movies, television and comic books for the increase in juvenile delinquency.

The responsibility for teen-age sex orgies, narcotic addiction and other crimes, he declared, is shared by parents with motion picture producers and others who glamorize the "quick buck" boys and their mink-coated girl friends. The fact that such stories and pictures may have a moral ending with the villains punished and virtue triumphant does not undo the harm.

He pointed out that a noted child psychiatrist has said, "there were no bad children, only inadequate parents." There are parents who place the easy dollar, flashy cars and night clubs above the need of setting a proper example for their own youngsters. The parent whose reading consists of the racing sheet and the lurid crime story and has little or no time for guiding the teen-age son or daughter, is just as much at fault as the corrupt official.

The views of Mr. Ayer are shared by many others who are close to the problem. Police Chief George A. Dane has long held the view that while movies and comic books have a lot to do with it, most of the things that contribute to juvenile delinquency go right back to the homes.

Discussing the subject some time ago he told The Townsman; "Youngsters of today don't have the same home life as we had years ago. They have baby sitters to take care of them now, and some have no one to take care of them. The fathers and mothers run out too much. They are interested in their own pleasures, whether it's the movies or the night clubs, and let the children shift for themselves most of the time."

Adult standards in the past several years have deteriorated to the point that many govern their actions according to what is pleasurable rather than according to what is right. With such examples before them it is not difficult to see how many youngsters get into trouble.

## Big Year

The editor of Chain Store Age recently wrote that 1951 will probably be the biggest retail year in history, in terms of dollar sales. It is believed that total volume will exceed \$150 billion as compared with \$140 billion in 1950. This is predicted on the expectation in retail circles that the coming holiday business will exceed last year's.

The significance of this is enormous. It means that more and more goods of all kinds are finding their way into the homes of the American people. It means that, in spite of high prices and taxes and all the other economic problems we face, our living standards are so high they amaze the rest of the world. It means that the American productive machine is still running in high gear.

We are all beneficiaries of retailing's contribution to the economy, though few of us give it conscious thought. The finest farms and factories on earth would be of small service to the nation unless there were an adequate distribution system to buy, transport, advertise, display, and sell the goods. The American family doesn't go to a farm for its food, or to a manufacturer for its clothing and household supplies and all the rest of the things it needs and wants. It goes to some of the hundreds of thousands of retail stores which operate in this country. And, due to competition, it gets fine products at the lowest price which the economic conditions of the time make possible. The retail store is America's vivid show window.

## HERE'S TO YOUR HEALTH

### WHEN YOUR CHILD IS ILL...

A mother soon notices anything unusual in a child's behavior which leads her to suspect that he is "coming down with something." Maybe the child just seems out of sorts, or he may show more definite signs of illness. A mother is not expected to diagnose her child's illness or decide how to treat it; she should, however, be quick to recognize signs of illness and secure medical care promptly.

If the child seems ill, put him to bed. Keep other people away from him, especially other children.

Call your physician. If he cannot come immediately, he will give you instructions to follow until he gets there. Remember that the first hours are often the most important in illness. Prompt medical care may prevent complications. The protective substances which are used to lighten or shorten the attack of certain communicable diseases are of most value when given early. The sooner they are given, the better the results. If the disease is diagnosed promptly, treatment can be started at once.

If your telephone were  
valued like an Indian Prince...

Every year the people of some countries weigh their ruler on his birthday... then give him his weight in gold or precious gems.

If you were to weigh the value of your telephone to you and your family, you'd find it can't be measured in terms of diamonds or rubies or money.

Think of the *comfort*—the *convenience*—the *friendliness* of telephone service. Your telephone is your constant companion... saves you steps and miles... links you with friends,

family. And its value in emergencies is very great.

Telephone *service* is better, faster, more efficient than ever... you can reach twice as many people as you could ten years ago, and twice as many people can call you... yet in relation to other things you buy, the *cost* of your telephone service actually takes a *smaller* portion of your family budget today than it did in 1940.

Your telephone is a bigger bargain than ever — Big in Value — Little in Cost.
